Alexandria®
BRIDGING THE GAP

Alexandria is designed from the ground-up to engage all learners and learning styles. Alexandria is a unique 100% cloud-hosted, web-based solution that does not require installing any apps and can be accessed from anywhere, on any device, at anytime – allowing you to keep your library in the center of your learning goals to help bridge the gap between remote and in-class learning.

Equitable Access

Ensure equitable learning opportunities throughout your library program with Alexandria: the only WCAG/ADA compliant library solution designed to engage learners of all ages, with multiple interfaces created for K-12 and beyond, to inspire their passion for reading.

Maximize Your Investment

Extend the life of your collection with continuous, world-class metadata enhancements through Alexandria, allowing your students to discover more in a catalog that is more accessible and exciting than ever!

SWITCHING IS EASY

We understand that change can sometimes be daunting - so we've made the transition as painless as possible. We'll be with you every step of the way. We also provide live webinars, available to anyone on your staff, to help you get acquainted with Alexandria 7's innovative, new interface. Not to mention, tons of videos and other resources to help you along the way, and if you still have have questions, our 24/7 industry-leading live tech support is here for you.
