

Your EdTech Without Limits

Single sign-on is a means to an end. Alexandria's CampusKEY powered by GG4L® School Passport is a flexible enterprise-grade Identity Management Solution that tells the story of who, when, and how your EdTech is being used and the impact it is having on student outcomes.

What is CampusKEY?

Alexandria's CampusKEY is an enterprise-grade, single sign-on (SSO) and identity management (IDM) platform that helps school districts securely and cost-effectively distribute third-party EdTech applications and content to students and staff by choosing from hundreds of applications listed in our CampusKEY Catalog. CampusKEY seamlessly works with any school or district's LMS, SIS, third-party applications and devices. CampusKEY gives you a dashboard listing of all your EdTech solutions and provides notifications about data quality issues. Hosted on AWS industry-leading infrastructures, you can be sure your data is safe and secure!

Personal Single Sign-On

Students, guardians, and staff safely and securely get 24/7 access to your EdTech solutions and content on any device from any location. Users love the flexible and simple drag-and-drop customization of personalized portals, including custom folders of most used apps and quick bookmarks of frequently used webpages.

EdTech Usage Analysis

Administrators love insights provided by easy-to-read dashboards, that analyze who, when and how EdTech investments are being used. Analytics can be analyzed across any level: district, school, class and student, helping you understand user experience, make informed decisions, and ultimately ensuring resource ROI.

Secure ID Management

I.T. is empowered with unmatched flexibility to securely deploy and manage authentication throughout schools and districts with a simple click of a button. Options are endless, including using a mix of federated credentials of LMS, SIS, G-Suite, Active Directory, and social media logins!

KEY FEATURES

- Personalized, brandable SSO homepage
- Embedded in an LMS or district website
- Powerful hierarchical usage analytics
- Measurable impact on student outcomes
- Flexible federated login credentials
- Standard-based: SAML, OAuth, LTI

COMPANION Corporation has been developing EdTech software for over 30 years, beginning with Alexandria® Library Management Software. Since 1987, we have been striving to provide high-quality products that help facilitate learning and make education more accessible to students everywhere.

GG4L was created as a result of rolling-up a group of EdTech companies, each with its own experienced and passionate leadership team, as well as common visions and the mission of creating sustainable social impact that benefits schools and their surrounding communities globally.

Together we are committed to creating EdTech Without Limits and providing schools with tools that empower faculty and inspire students!
