

# Alexandria®

## PATRON MANAGEMENT MADE SIMPLE WITH ONEROSTER COMPLIANCE

**We are dedicated to providing you the tools to succeed.**  
**That is why we are the only library automation software to partner with OneRoster® compliant products.**

Alexandria®

Alexandria®

### AUTOMATIC

Student roster information automatically updates in Alexandria each day.

Automate daily additions, edits, and graduations.

### SAFE AND SECURE

School administrators can be assured that privacy and security protocols are met.

Our partnership with certified OneRoster® products like Clever and GG4L will provide the channel for Alexandria to access all student data in a standardized way. Alexandria's SIS Integration will relieve teachers, librarians, and administrators from managing rosters throughout the year by transferring data between your student information system and Alexandria.
