

# ACCESS ALEXANDRIA'S FULL POTENTIAL WITH v7

When you upgrade your Alexandria to v7, you open up your library to an abundance of opportunities. We took library software and pushed the limits of what is possible.

With new features such as mobile abilities, cloud-hosted management, and full SIS integration options, you can truly have your library, your way.

**Upgrading to Alexandria v7 is fast, simple, and FREE!**

**Your new library experience is just around the corner.**

## Cloud-Hosted Management

**We do it all for you, including:**

- Access your catalog from anywhere, at anytime, with any web-ready device!
- Daily data archives backed up by us.
- **Setup included** – no software installation or maintenance required.
- **Updates handled automatically** by our expert technicians.
- **Reliable bandwidth and uptime.**

## SIS Integration

**Modernize and streamline your library:**

- Our SIS Integration bundle now includes **Clever!**
- **Automatic updates** on student and teacher roster information each day.
- **First-rate privacy and security practices.**
- **Single username and password** for students to access learning applications.

## Mobile, Slideshow, and Bulletins

**Showcase your collection and spotlight events**

- Allow students to **browse your collection** from anywhere, even a mobile device!
- **Promote new titles, monthly themes, or reading subjects** with our new Slideshow feature.
- Create **virtual bulletin boards** to showcase events, clubs, activities, etc. happening at your school or community.

**Free bi-weekly Basic Training Webinars to get you started with Alexandria v7.**
