Kiosk Text

Kiosk Preferences is where you will access and edit kiosk options, primarily messages and account lists.

In the Kiosk Text tab, you can custom defined messages that will display on the Attended and Self-Service kiosks at this facility.

The screenshot shows a web interface for "Washington High School" with a "FACILITY" label and a "Show All" button. The "Kiosk Text" tab is selected, with other tabs for "Account Announcements" and "Account Lists". The page contains three sections for editing kiosk messages:

- Kiosk Welcome Message:** This welcome message shows in the Attended and Self-Service kiosks at your facility. The text area contains the HTML code: `<p>Welcome to our school.</p>`
- Kiosk Announcement:** This announcement shows in the Attended and Self-Service kiosks at your facility. The text area contains the HTML code: `<p style="font-size:18px">No Kiosk Announcements at this time.</p>
 <i> Update Announcements in the Kiosk Text preference.</i>`
- Kiosk Can't Sign In:** This notice shows in Self-Service kiosks at your facility when a visitor who is expired, not yet effective, or a status other than Active attempts to sign in. The text area contains the text: "Please check with the main office."

Kiosk Welcome Message

This text will display in the Attended and Self-Service kiosks at your facility. If no text is entered, the default message will read, *"Welcome to our school."*

✔ HTML is supported.

Kiosk Announcement

This text is displayed in the Attended and Self-Service kiosks at your facility. If nothing is entered, the default message will read, *"No Kiosk announcements at this time."*

✔ HTML is supported.

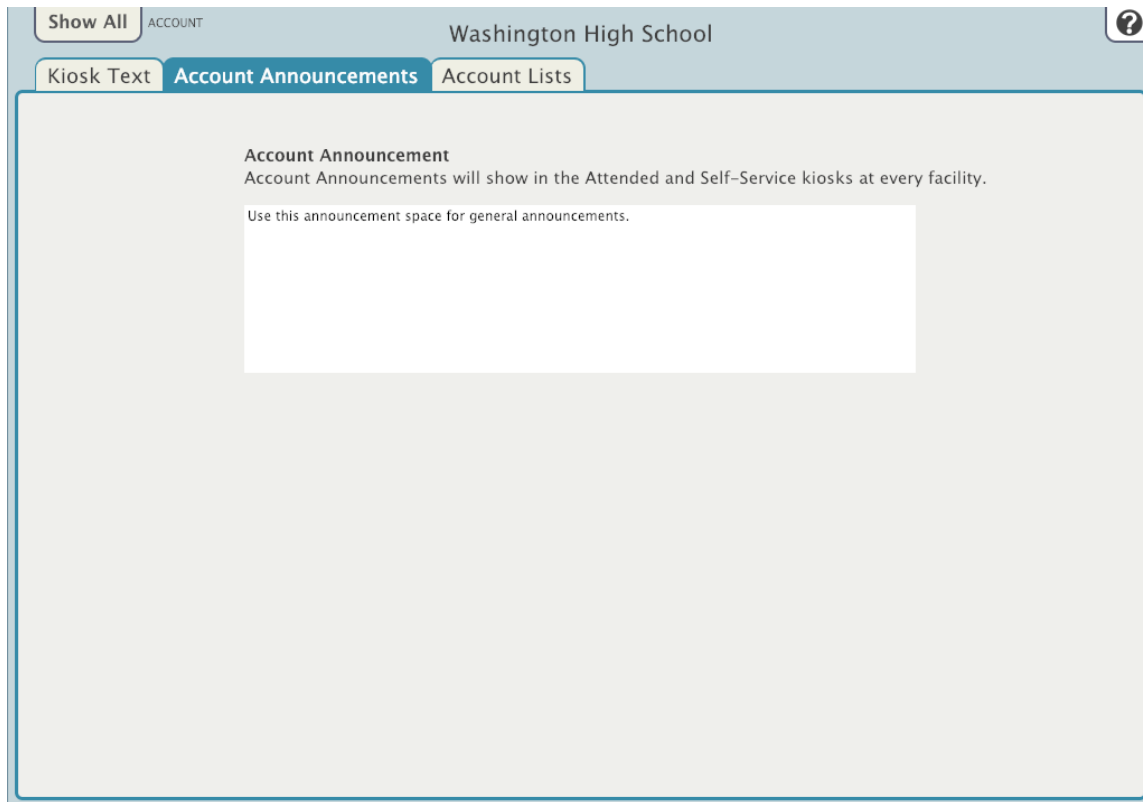

Kiosk Can't Sign In

This text will display in the event a visitor can't sign in because their account is not set to Active.

✘ HTML is *not* supported here.

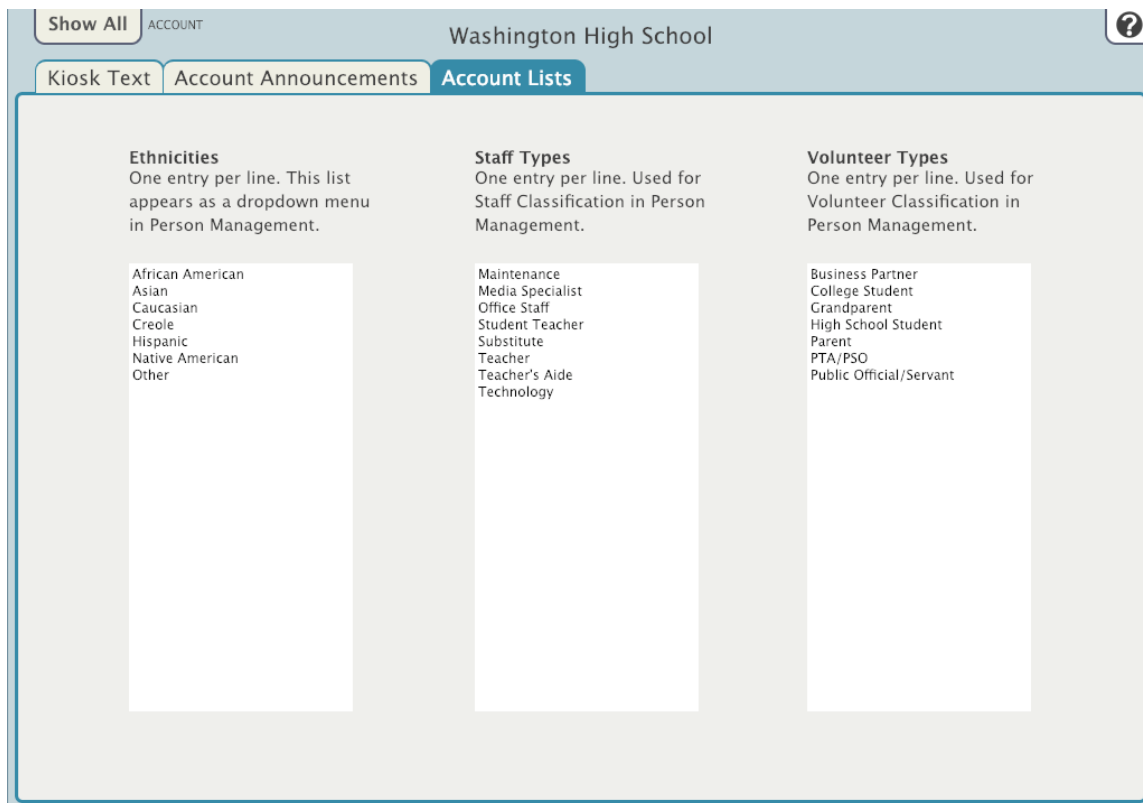

Account Announcements

This is an editable field that will display in all the Attended and Self-Service kiosks for your entire account, alongside facility messages. You can customize the message with HTML.

Account Lists

Here you can view, add, delete and edit different types of information used throughout the system.

These lists are shown as drop-down menus in the [People](#) module. Enter each term on a separate line. The default lists are:

Ethnicities
