

Facilities

Unknown macro: 'multiexcerpt-include-macro'

Facilities Management is divided into two panes. The left hand portion of the window contains a list of the facilities in your KeepnTrack system. The right side of the window contains all the information that is relevant to the selected Facility.

The screenshot shows a web application interface for Facilities Management. On the left, there is a 'Facilities List' pane with a search bar labeled 'Search Facilities' and a magnifying glass icon. Below the search bar, three facilities are listed: 'Adams Middle School', 'Jefferson Elementary School', and 'Washington High School'. At the bottom of this pane, it says '3 Licensed Facilities'. On the right, the 'Facility Information' pane is active for 'Adams Middle School'. It contains several input fields: 'Facility Name' (Adams Middle School), 'Facility ID' (AMS), 'Facility Address' (1831 Fort Union Blvd.), 'Facility Address 2' (empty), 'City' (Salt Lake City), 'State' (Utah), and 'Postal Code' (84121). There are also fields for 'Facility Contact' (Randy Everill), 'Facility Email' (sales@keepntrack.com), 'Phone Number' (801-943-7277), and 'Fax Number' (empty). A 'Notes' section with a text area is below these. At the bottom, there is a 'Facility Logo' section showing a red 'A' logo with '+' and '-' zoom buttons, and a 'Time Zone' dropdown menu set to 'US/Mountain'. A location pin icon is next to the postal code field.

Facilities List

This is a list of all the Facilities you have licensed with KeepnTrack. Select a Facility to view it in the Facility Information pane to the right.

Facility Information

Facility

- **Name.** This is the name of the facility.
- **ID.** This is an ID assigned by the operator when the Facility was created.

Location

Enter the address of the facility's physical location, including city, state, and postal code.

- **Facility Address**
- **City**
- **State**
- **Postal Code.** Not sure exactly where this is? Click  to open the address in Google Maps.

Contact

Enter the primary contact information for the Facility.

- **Facility Contact**
- **Facility Email**
- **Phone Number**
- **Fax Number**

More

- **Notes.** This field allows the **Operator** to add any miscellaneous information applicable to the **Facility**.
- **Facility Logo.** If the **Facility** has a logo, it can be entered here. The image can be any of the primary image formats, including; .jpg, .tif, .bmp, .png. The size of the image should be 130px by 130px.
- **Time Zone.** This is a drop down menu containing the **Time Zones**.

Remove a Facility

 In KeepnTrack, the number of **Facilities** is set and limited by your license. Please note, that removing a facility should not be taken lightly as it *can not be undone*. Also, it should be a rather infrequent occurrence, that takes place when the number of facilities under management changes. Upon removing a facility, all data and preferences associated with the facility in question, will be deleted. Additionally, any user(s) logged into the facility will be logged out.

Part One

To perform a **Facility Removal** perform the following steps:

1. Contact **KeepnTrack Sales** at 1.800.347.6439 and make the required modifications to your license.
2.  You **MUST** run full reports before removing the facility as ALL data associated with the facility will be removed.
3. Once the changes have been made to your license, you must remove the facility through the **KeepnTrack** software, following the instructions below.

Part Two

 **Remove Facility**

Only use this command if you want KeepnTrack to remove all Activities, History, and Preferences for the selected Facility. To change the name of a Facility, simply edit the name!

Only proceed if you want all the data for this Facility to be removed from KeepnTrack.

Removing a facility will log out anyone logged in to that facility.

1. In Facilities Management, select the Facility to be removed from the list on the left.
2. In the bottom left hand corner, click the Actions menu and select **Remove Facility**.
3. Once this has been done, you will be presented with the first of three confirmation warning alerts. If you're certain, click Remove Facility. This will bring up the second confirmation warning alert.
4. Again, if you are certain you wish to remove this **Facility** and all its accompanying data, click on **Permanently Remove**. *This action is final and cannot be undone*. Once done however, you will be presented with the final confirmation dialogue.
5. At this point, **KeepnTrack** will remove your facility and you have successfully completed the **Facility Removal** procedure. Pending the final removal, you will see the name of the **Facility** changed to "*_ScheduledforRemoval*".
