Moving from v6 to v7? You'll need to convert your saved reports.

Not all of the report templates in v6 have a v7 equivalent, but the lists in these tabs should give you a good idea of where to start. In many cases, multiple v6 report templates were consolidated into one v7 template that allows for various sorting and formatting options. Reports are highly customizable, so test each of the options to find the best report and format to fit your needs.

There are more reports in v7 than are listed here. See the [Complete Reports List](#) for more info.

Some reports haven't been moved to v7 because we aren't sure if they're still being used. If there's a v6 report you use and need that isn't in v7, please [let us know](#) which report it is and how you use it so we can better inform our decisions.
