

Google SSO

 This page has been moved to <https://support.goalexandria.com/add-ons/google-ss/>

 Google SSO is an optional Alexandria integration. [Contact our Sales Team](#) if you're interested in adding it to your library!

Looking for a Single-Sign-On solution? Alexandria now offers Google SSO! Google SSO is perfect for schools and districts already using Google.

Toggle "on" to enable the preference, and pair the administrator account with Google. Then, the **Sign in with Google** button will show up on logins! And that's it! Setup is so easy.

The screenshot shows the Alexandria web interface. On the left is a dark sidebar with navigation links: Dashboard, Circulation, Items, Patrons, Operations, Tools, Builder, Preferences (highlighted), and Tips. The main content area is titled 'Preferences - Services' and lists various add-ons. 'Google SSO' is selected and highlighted. To the right of the list is a 'Settings' panel for Google SSO. It features the Google logo, a toggle switch set to 'On', and explanatory text: 'Your patrons can use their Google Workspace credentials to sign in to Alexandria. This SSO solution mitigates the need for your patrons to have multiple usernames and passwords for these different services. You are registered for this add-on.' Below this is an 'Authenticate' section with a 'Sign in with Google' button and the email 'jenm.companioncorp@gmail.com'. A 'Matching' section asks 'How are patrons matched between Alexandria and Google Workspace?' and shows a dropdown menu set to 'Email'.

Matching

How are patrons matched between Alexandria and Google Workspace?

Match on...

Email

Username

Google SSO will be matched based on your settings in preferences—by email or username.

 Important: Only one single domain can be used with the Alexandria Google SSO feature. Email will match based on your admin (paired) email. e.g. if your paired email is [lib@alexandria.com](#) then only student accounts with the domain suffix of [username@alexandria.com](#) will match.

The screenshot shows the Alexandria login page. It has the Alexandria logo at the top. Below it are two input fields: 'Username' and 'Password'. A dark blue 'LOG IN' button is below the password field. Below the button is the word 'OR'. At the bottom of the login area is a 'Sign in with Google' button with the Google logo. A link for 'Forgot your password?' is at the very bottom.

Here's what the sign in looks like with Google SSO.
