> ⚠️ Regular KeepnTrack updates are tentatively scheduled to resume spring/summer 2024 with the release of the KeepnTrack Makeover.

The major KnT update—the KeepnTrack Makeover—is currently in development. Some of the features include:

🛠️ Backend overhaul to improve stability and reliability.

🔄 Interface overhaul and navigation improvements.

👤 Volunteer application improvements.

⚏ Customizable application picker (hub/landing page).

📓 Saved reports.

Also...

- Simplified reports
- SIS Integration with GG4L
- NEW Dashboard interface
- Tutorials and Tips
- Workstation defaults at a site level

This sets us up for future improvements including sounds, kiosk styles, terminology, kiosk monitor, and more.
