### Change Purchase Cost Change Purchase Cost

Changes the purchase cost of selected copies

There are four options when changing the purchase cost amount:

- Change Purchase Cost to: Completely replaces the old purchase cost with the new value
- Change Purchase Cost by [] \$: Adds the old purchase cost to the new value

   e.g. old value (\$10) + new value (\$8) = \$18
- Change Purchase Cost by [] %: Adds the old purchase cost to the old value times the entered percentage

   e.g. old value (\$10) + (old value (\$10) \* percentage (100%)) = \$20
- Match to Replacement Cost: Changes each selected copy's purchase cost to its replacement cost.

### Use(s)

Run this utility if you need to add purchase costs for inventory purposes or originally entered the wrong information.

Selections					0	ptions	
Selections Options						Selections Options

### Change Replacement Cost Change Replacement Cost

Changes the replacement cost of selected copies

There are four ways to change the replacement cost amount on the Options tab:

- Change Replacement Cost to: Completely replaces the old replacement cost with the new value
- Change Replacement Cost by \_\_\_ Dollars: Adds the old replacement cost to the new value
   ° e.g. old value (\$10) + new value (\$8) = \$18
- Change Replacement Cost by \_\_\_\_\_%: Adds the old replacement cost to the old value times the entered percentage

   e.g. old value (\$10) + (old value (\$10) \* percentage (100%)) = \$20
- Match to Purchase Cost: Changes the old replacement cost to match the copy's purchase cost

- Run one of these utilities if you need to add replacement costs for reporting/fine purposes or had originally entered the wrong information.
- If you would like to set your replacement cost a certain amount over the purchase cost for a group of copies, first run this utility to set the replacement cost to the purchase cost. Then run it again and add X amount to the replacement cost.

# **Reassign Union Site Copies**

This utility is only available to those with a Centralized Catalog.

### **Reassign Union Site Copies**

Moves selected copies from the Union Site to the specified site

Union Site copies always maintain a status of *In Processing*. Even when you move those copies, they will still have the *In Processing* status. Bookdrop your recently moved copies or run the *Check In Processing Copies* utility to change their status to *Available*.

- Run this utility if you accidentally imported items with an invalid site code and need to move those copies to the intended site.
- If you purposely use the Union Site to store In Processing copies, run this utility when those copies have been processed and need to be moved.

Selections	Options
Selections         Options           Move copies from the Union Site to the site specified under the Options tab. Note that these copies will still have a status of In Processing after being moved. Move:	Selections Options New Site AMS

Textbook Tracker

### Remove Lost Copies Remove Lost Copies

Removes selected copies that have been declared lost (checked out to System Patron 1)

Since copies can be lost in different ways, there are three types of lost copies you can remove:

- Patron. Removes copies that were lost by patrons. These have associated fines and are likely to be returned later.
- Inventory. Removes copies that were declared lost during inventory or other circumstances not involving a patron. These have no associated fines.
- Both. Removes all lost copies, no matter how they were lost.

Since lost copies are often found and returned, we recommend waiting at least a year to remove them. Use the **Copies Lost** selection to ensure only those lost a year ago or longer are removed.

#### Use(s)
