Getting Started

Read our [Getting Started Guide for Librarians](#) to learn how to set up and customize Textbook Tracker for your school's needs. We also have a [Self-Hosted Guide for Admins](#) that gives IT specialists and admins important information on installation and backups.

Resources and Requirements

Alexandria Textbook Tracker and Alexandria Librarian share some of the same resources and requirements. See these pages for more information:

- [Release Notes](#) (see what's new each month)
- [Alexandria Requirements](#)
- [Terms of Service & Privacy Policy](#)
- [Network Printer Security Certificate Form](#)
- [Network Receipt Printer Installation Guide](#)

License & Registration

Alexandria Textbook Tracker is a companion to Alexandria Librarian and requires a separate registration code. While each application can be used independently, they are meant to work together. To avoid duplication, some modules and databases, such as patron data, are shared between them.
