

# COVID-19 Resources

this page has been migrated to <https://support.keepntrack.com/getting-started/resources/#covid>

As COVID-19 continues to affect communities everywhere, it's important for schools to have specialized procedures as everyone returns. At KeepnTrack, we've created an easy solution for screening students, faculty, volunteers, and more as they enter your facility.

First, watch the [COVID-19 Tracking](#) video to learn how to require notes at kiosk sign-in. You can then use the [COVID-19 Cheat Sheet](#) to quickly insert answers to screening questions in those notes. If you'd like to learn how to generate reports with that information, check out the [COVID-19 Reporting](#) video as well.

Fill out a [survey](#) about our pandemic response and receive a 20% discount on our latest [Bluetooth Linear Scanner](#)!
