

NoveList

 This page has been moved to <https://support.goalexandria.com/add-ons/novelist/>

 NoveList is an optional Alexandria integration. [Contact our Sales Team](#) if you're interested in adding it to your library!

COMPANION is proud to be partnering with NoveList to provide a fully-integrated reader-advisory service. Once licensed, customers have the ability to access the NoveList Select service directly from within Alexandria, offering reading recommendations (and more) so patrons can easily access additional content as they search and increase awareness of available materials related to their interests; this leads to increased library circulation and helps to generate excitement about library services.

The screenshot shows the Alexandria system's "Preferences - Services" page. On the left is a dark sidebar with navigation links: Dashboard, Circulation, Items, Patrons, Operations, Tools, Builder, Preferences (highlighted), and Tips. The main content area is titled "Preferences - Services" and lists various integrations: Capstone Publishers, Google SSO, Gumdrop Books, Mackin, MackinVIA, netTrekker, NoveList (highlighted), OverDrive, Perma-Bound, Perma-eHub, SAFARI Montage, and Sneak Peek. The "NoveList" section is expanded, showing a "Settings" tab. The settings include a toggle switch for "NoveList" (currently "Off"), a description of the service, a "Vendor URL" field with the default value "http://imageserver.ebscohost.com/novelistselect/ns2init.js", a "NoveList Profile" field with the value "s4991934.main.novsel", and a "NoveList Password" field with a "show" button. The top right of the interface shows the user "Hi, Demo" and "Mia Middle School".

Settings

Enter the NoveList account information provided when you purchased your NoveList subscription. Once the correct profile and password information has been provided, the Details section in your Search and Explore interfaces will be enhanced with NoveList Select content—displayed as it is retrieved from their servers.

- **Enable NoveList.** When enabled, a NoveList selection will appear in the Vendors drop-down menu located in the Current Item pane of the Circulation window. Selecting NoveList from the Vendors menu will take you to the address provided in the Vendor URL field.
- **Vendor URL.** Currently, the default is <http://imageserver.ebscohost.com/novelistselect/ns2init.js>
- **NoveList Profile.** This username provided by NoveList when you purchase an account from them.

- **NoveList Password.** This password provided by NoveList when you purchase an account from them.
