Feedback Defaults

These preferences configure some of the default settings applied to new textbooks when they are added to your collection.

Barcode Settings

New textbooks are assigned the next available barcode number provided here unless you assign them a number manually. Set this field when you first configure Textbook Tracker so that new items are assigned barcode numbers that coincide with your numbering strategy.

Next Barcode: 1408008

Policy

Select the default item policy to use for new textbooks. If an operator-created item policy is applied and later removed, this preference will revert back to Textbook.

Default Policy: Textbook

Copy Location & Status Defaults

Values entered here will be used as defaults when changing copy locations using the Set All Copy Locations data manipulation command: "CM".
