

Policy Exceptions

see <https://support.goalexandria.com/tools/policies/#exceptions>

Exceptions

The standard settings configured in the subtabs of the Patron Policy and Item Policy sections are the general rules for the selected patron and item groups (e.g. 6th Grade and eBook). Exceptions to these rules are set in an appropriate combination of a patron and item policy. Exceptions mode allows you to modify the behavior and relationships between selected patron and item policies to further customize your policy settings.
