

¿Hablas español?- Filter search results by language

August 22, 2022

September is Hispanic Heritage Month, and we thought now would be a perfect time to refresh your memory on searching by language in Alexandria.

Researcher

Did you know that your patrons can filter Search results in Researcher by language?

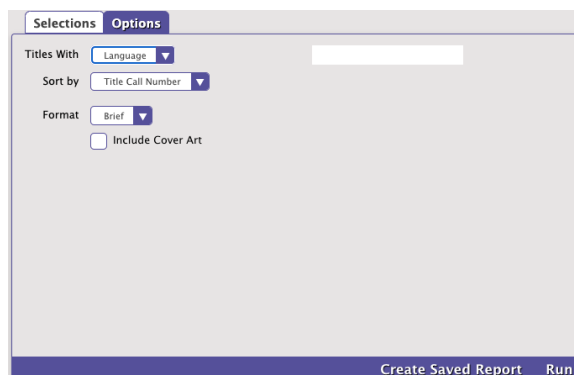

In [Search](#) (/search) once a patron enters a search term and has results, they can use the filter icon to go to Language to filter out the results. (Note that the filter only looks at the first 041_tag.)

Reports

Want to search your collection for titles in a specific language? Go to **Reports > Titles > Title Information**, and select **Language** in the "Titles with" drop down in the Options tab. Enter the language you want to search, and the report will pull a list for you of any titles in that language.

As always, you can reach out to our stellar Support team at support@goalexandria.com for help with this, or anything else you may need in Alexandria.

Make your collection even more discoverable with [Mitinet Add-ons](#). Contact Sales today at 1.800.347.6439 to ask about your options!

The [Makeover](#) betas are here! Look in Circulation, Items, and Patrons for a purple alert button  at the top of your screen. That will take you to the Makeover beta in our [demo](#) where you can play around recklessly.
