

Bibliographic Format

Tip for 08.27.18

Did you know your students can generate a bibliography through Researcher? It's simple!

1. In Researcher, perform a search, or open your [list](#) of items you want a bibliography for.
2. Click the print icon. 
3. Set the format to **Bibliographic Format**.
 - a. In version 7, you can see the format right away, and can simply copy the text from here if that's all you need. Otherwise continue.
4. Click **Print**.
 - a. You can print to a printer if you need a paper version of the bibliography.
 - b. Otherwise, save to PDF. This will let you copy the text in the PDF to use in your report or your notes!
