 Capstone PebbleGo is currently a *free* feature of Alexandria! No product activation codes or licenses are required.

Alexandria proudly partners with PebbleGo™, an innovative K-3 database from Capstone Press, taking multimodal learning to the next step by making research and literacy accessible for even the youngest of students. Each database features expertly-leveled text and navigation specifically designed for beginning researchers. Enriched with spoken-word audio, text highlighting and audio and video clips, PebbleGo builds a foundation of research skills for every learner. These settings determine whether or not you would like to use this fun, additional resource.
